Normalerweise **wird der Hersteller von Sicherheitsnetzen in Visornets** regelmäßig in standardisierten Größen nach Markt oder Kunde geliefert, immer in quadratischen oder rechteckigen Größen.But what it happens if a costumer need a specific safety net for a particular solution where the net is not square or rectangle?Well, no problem at all at Visornets, we do have a fully experienced engineer department and experienced netmakers as well, so we can make it real any drawing you need for your Project as so special as it wil be.

Let´s see one of the latest special Project: A costumer came to us asking if is posible to make a safety net with a very speacial shape, because they have to install it for protecting the fall people and debris in manteniance labours inside a big rated hotel. The solution with netting had to protect the worker and the hotel clients because the net will have to be just up in the lobby.
